## THE LATEST ON THE CAPITAL CAMPAIGN

**D**onations from our generous membership, contributions from businesses, and grant funds have allowed more improvements at Ker Place as we prepare this shining example of Federal-period Georgian-style architecture for the future.

### NEW EXTERIOR LIGHTING

New lanterns and lampposts welcome guests to the front entryways. Uplighting along the back walk and front of the house as well as downlighting in the front sycamore trees not only highlight architectural and landscaping features but also enhance safety on the grounds.

### UP, DOWN, ALL AROUND

The museum's exterior dons fresh paint. The collection is now protected by UV treatment on the windows. Fencing added to the west side as well as repairs and new paint to pre-existing fence spruced up the perimeter of the property, and a new roof tops the Annie C.

### NEW INTERIOR LIGHTING

Three period chandeliers now adorn the dining room, the parlor, and the green room.
